The Board of Education delegates to the Superintendent the authority to make decisions on the placements of food and beverage vending machines in the schools. This includes whether such machines may be installed, where they would be placed, what items would be dispensed, and during which hours they might be used.

Vending machines are operated as a revenue-producing endeavor and as a convenience for students, staff and patrons. All revenue produced from this source shall be deposited in the designated activity fund as approved by the Board of Education.
