POLICY

CLASS RANK AND COURSE WEIGHTING

Revised: 11/9/12

Policy No. 7-304*

Page 1 of 1

High school academic performance is an indication of success in fulfilling the graduation requirements and the personal goals of the student.

In order to recognize student performance and success, differentiated weighting of marks will be incorporated into the preparation of the rank-in-class, which includes Honors and Advanced Placement classes.

Parents and students are notified annually regarding course weighting as it applies to grade point average, Honors and Advanced Placement courses via the Danbury High School Handbook as well as the Danbury High School Course of Study Guide.
