<p align="center"><i><b>EXTRA CURRICULAR ACTIVITIES ACADEMIC ELIGIBILITY</b></i></p>	<p>Reviewed:</p>	<p>Policy No. 7-400 Page 1 of 1</p>

Extra-curricular activities will represent programs annually recommended by the Superintendent and approved by the Board of Education. Eligibility criteria for grades 6, 7, 8, 9, 10, 11 and 12 are:

- A student must be enrolled in four (4) courses representing four (4) full units of credit for the academic year. (This represents twenty (20) earned credits.
- A student, at the time of participation, throughout any new school year, must present evidence from the preceding school year that four (4) units of credit were completed toward the promotion or graduation/diploma requirements. This is not applied when a student passes from one level to another, i.e., elementary to middle and middle to high school. This will enable students entering each level to begin with a clean slate.
- A student, during a marking period, must have achieved an overall "C" average for the courses completed in that marking period which preceded the interscholastic sport season or the extra-curricular activity program.
- A student classified as handicapped and enrolled in a special education program may be exempt from this regulation, if the IEP contains a request for waiver of these requirements.

These regulations will meet or exceed the CIAC requirements for student participation in interscholastic sports. Procedures to verify eligibility will conform to CIAC guidelines.
